PROGRAM EXTENSION REQUEST FORM

Students who are approaching the seven-year program limit, or who did not complete their program within the initial seven-year term, may request a program extension from the university president.

In the space provided below, briefly explain why you were unable to finish the program and indicate how much additional time you will need to complete your remaining coursework and the written final project.

This form will be forwarded to Paul McDonald, President, for review. The student will be notified of the approval.
